SARAH KAYDENCE

Designer | Developer | Guitarist | Geek

HELLO WORLD!

I'm Sarah (or Kaydence, whichever you fancy).

I'm a graphic designer, illustrator and budding front-end developer, based in tropical Singapore.

I'm eager to merge my newfound interest in coding with my experience in graphic design — to create functional yet thoughtful brand identities, websites, and applications.

When I'm not busy doodling or designing — you'll find me either noodling with my guitars (both electric and acoustic), or nerding out over all things music and geek culture.
